UnitedHealthcare Coverage Decision Notice

Dear Jordan Rivera,

We reviewed the claim submitted by your treating physician, Dr. Demo Orthopedics, for outpatient physical therapy therapeutic exercise services following your right proximal tibia fracture. Based on the information available to us at the time of review, UnitedHealthcare has denied payment for the services listed below.

Member ID: DEMO-MEMBER-001
Plan ID: DEMO-UHC-001
Claim / Reference Number: DEMO-PT-97110
Service dates reviewed: April 1, 2026 and April 8, 2026
Procedure code denied: CPT 97110 - therapeutic exercise
Diagnosis code listed: S82.101A - unspecified fracture of upper end of right tibia, initial encounter

Reason for denial

Physical therapy therapeutic exercise services were denied as not medically necessary. The clinical records submitted did not show that the requested services met UnitedHealthcare medical necessity criteria for continued outpatient rehabilitation therapy.

Specifically, the information reviewed did not clearly document current functional limitations, prior functional level, measurable therapy goals, or why skilled therapeutic exercise under CPT 97110 was required instead of a home exercise program.

Appeal rights: You may request a first-level internal appeal if you disagree with this decision. Your appeal must be received by May 30, 2026.

What you may send with an appeal

You may submit physician notes, therapy evaluations, functional status records, treatment plans, and any other information showing why outpatient physical therapy was medically necessary after the tibia fracture.

Appeals may be submitted by mail or through your member portal. Please include the member ID, claim number, denied code CPT 97110, diagnosis code S82.101A, and the date of this notice.

Sincerely,
UnitedHealthcare Appeals and Grievances Department
